Get a head start, order your ad at the same time! Ad space sold out last year! Get yours now.

You must first set-up an account within <http://www.community.pictavo.com> site (if you did so last year the account will still be active); you will need to go in, create the account, verify the account through your email and then go back into the same website before you can create and purchase an ad. Once that is done follow the simple steps to design and purchase a recognition ad.

Yearbooks are delivered and distributed to students during the last week of school in June.
